PROFILE

I am a graduate of Information Systems with a strong passion for web development, particularly in programming, website UI/UX design, and the creation of responsive and innovative websites. Equipped with a solid foundation in various programming languages, modern web technologies, and user interface design principles, I am committed to continuously enhancing my skills and knowledge in this field. I firmly believe that strong technical capabilities, combined with thoughtful design, are essential to delivering exceptional user experiences and high-quality digital solutions.

EXPERIENCE

PT. Sumber Alfaria Trijaya, Tbk

November 2025 - May 2026

BUILDING AND MAINTENANCE DIGITAL STORE (INTERNSHIP)

Currently participating in a comprehensive frontend development internship, actively contributing to enterprise application SPARTA Building. Leveraging Vanilla JavaScript for core system logic and Next.js (TypeScript) for modern scalable architecture. During the internship, I am involved in the following activities:

- Developing the Sparta Building application using Vanilla JavaScript, focusing on efficient DOM manipulation and lightweight performance.
- Migrate the Sparta Building platform using Next.js and TypeScript to ensure type safety and modular component architecture.
- Integrating RESTful APIs across both platforms to facilitate real-time data exchange and dynamic content rendering.
- Focused on writing clean, maintainable code and optimizing frontend performance to meet specific business requirements for both systems.

PT. Indocyber Global Teknologi

September 2025 - October 2025

MICROSOFT SQL SERVER (WORK TRAINING)

Completed a work training program focused on web development and database management. Currently strengthening skills in Microsoft SQL Server (SSMS) for database design, data querying, and performance optimization. During the training, I was involved in the following activities:

- Learned practical skills in database management using Microsoft SQL Server (SSMS).
- Designed and optimized relational databases to support real-world applications.
- Practiced backend-database integration using SQL queries and stored procedures.
- Focused on data handling, query performance, and reporting for work-related scenarios.

PT. Kinema Systrans

February 2024 - June 2024

WEB DEVELOPMENT & UI/UX DESIGN (INDEPENDENT STUDY)

Micro Project

- Product Research (Freelance Website)
- Designed Wireframe Product
- Designed High Fidelity Product
- Making Prototype Product

Massive Project

- Product Research (Mental Health Service Website)
- Designed Wireframe Product
- Designed High Fidelity Product
- Making Prototype Product
- Developing Front End Website

E D U C A T I O N

Amikom Yogyakarta University

2021 - 2025

Bachelor of Information System

GPA 3.68

S K I L L

Hard Skills

- MySQL
- Microsoft SQL Server (SSMS)
- JavaScript
- Typescript
- React
- NextJS
- TailwindCSS

Soft Skills

- Effective Communication
- Problem Solving
- Time Management
- Adaptability & Fast Learner
- Attention to Detail
- Team Collaboration
- Multitasking Ability
